## PROFILE

Front End web developer experienced with Agile CI/CD cross functional collaborative environments, and self motivated, independent work. Comfortable with continuous learning - an excellent fit for a junior front-end or entry level full-stack development role.

## EXPERIENCE

### FREELANCE WEB DEVELOPER

SELF EMPLOYED | HAMPTON, TN | April 2020 - present

- Built a demo WordPress CMS multi-site - [marthachamberlain.com](https://marthachamberlain.com)
- Building a dashboard based web app - [Next](#), [Supabase/PostgreSQL](#), [Typescript](#), [React](#), [MUI](#)
- Building my personal portfolio site. Challenged myself to build "from scratch" with a CRA base and a front end framework - [React SPA](#), [Javascript](#), [React Bootstrap](#), [Cypress testing](#)
- Built a marketing site for a hobby farm. Communicates client's mission and philosophy, and beautifully showcases the client's organic free range heritage breed fowl - [HTML](#), [CSS](#), [Javascript](#), [Web Components](#), [Bootstrap 5](#)

### SOFTWARE DEVELOPER I

TECHTONIC | BOULDER, CO | March 2020 - April 2020 (covid)

- Upgraded client's static demo mobile app to consume and display live data, allowing managers to visualize 'on the ground' water park conditions in real time - [React Native](#), [Redux](#), [Javascript](#), [Android Studio](#), [Xcode](#), [git](#), [GitHub](#), [RESTful API](#), [JIRA/Confluence](#)

### WEB DEVELOPER APPRENTICE

TECHTONIC | BOULDER, CO | June 2019 - March 2020

- Improved the Techtonic marketing website collaborating with marketing dept and QA to add new features, update web content, and fix bugs - [HTML](#), [Sass](#), [Bulma](#), [jQuery](#), [Butter CMS](#), [git](#), [GitHub](#), [JIRA/Confluence](#)
- Met classroom project deadlines and quality requirements setting a solid foundation in coding fundamentals, problem-solving, team collaboration and independent research - [HTML](#), [CSS](#), [Javascript](#), [Node.js](#), [Express.js](#), [React/Redux](#), [MongoDB](#), [RESTful API](#), [Bootstrap](#), [git](#), [GitHub](#), [JIRA/Confluence](#), [Cypress testing](#)
